Creating thoughtful food

YOUR EXTENDED ARM IN THE KITCHEN

At Orkla Foods Sweden we would like to consider ourselves as your extended arm in the kitchen. Our ambition is to create great food that is up-to-date and requested by the consumers. Orkla Foods Sweden has a long tradition of food and the craftsmanship behind it. We often say that we are creating thoughtful and honest food. This means, first and foremost, care about the raw materials and it applies to everything from Swedish cucumbers, beets and potatoes to the unique autumn herring that is caught only for a few weeks at Lofoten in Norway. The honesty means that we are actively working to contribute to human health and wellbeing.

ENVIRONMENTAL AND CLIMATE ISSUES

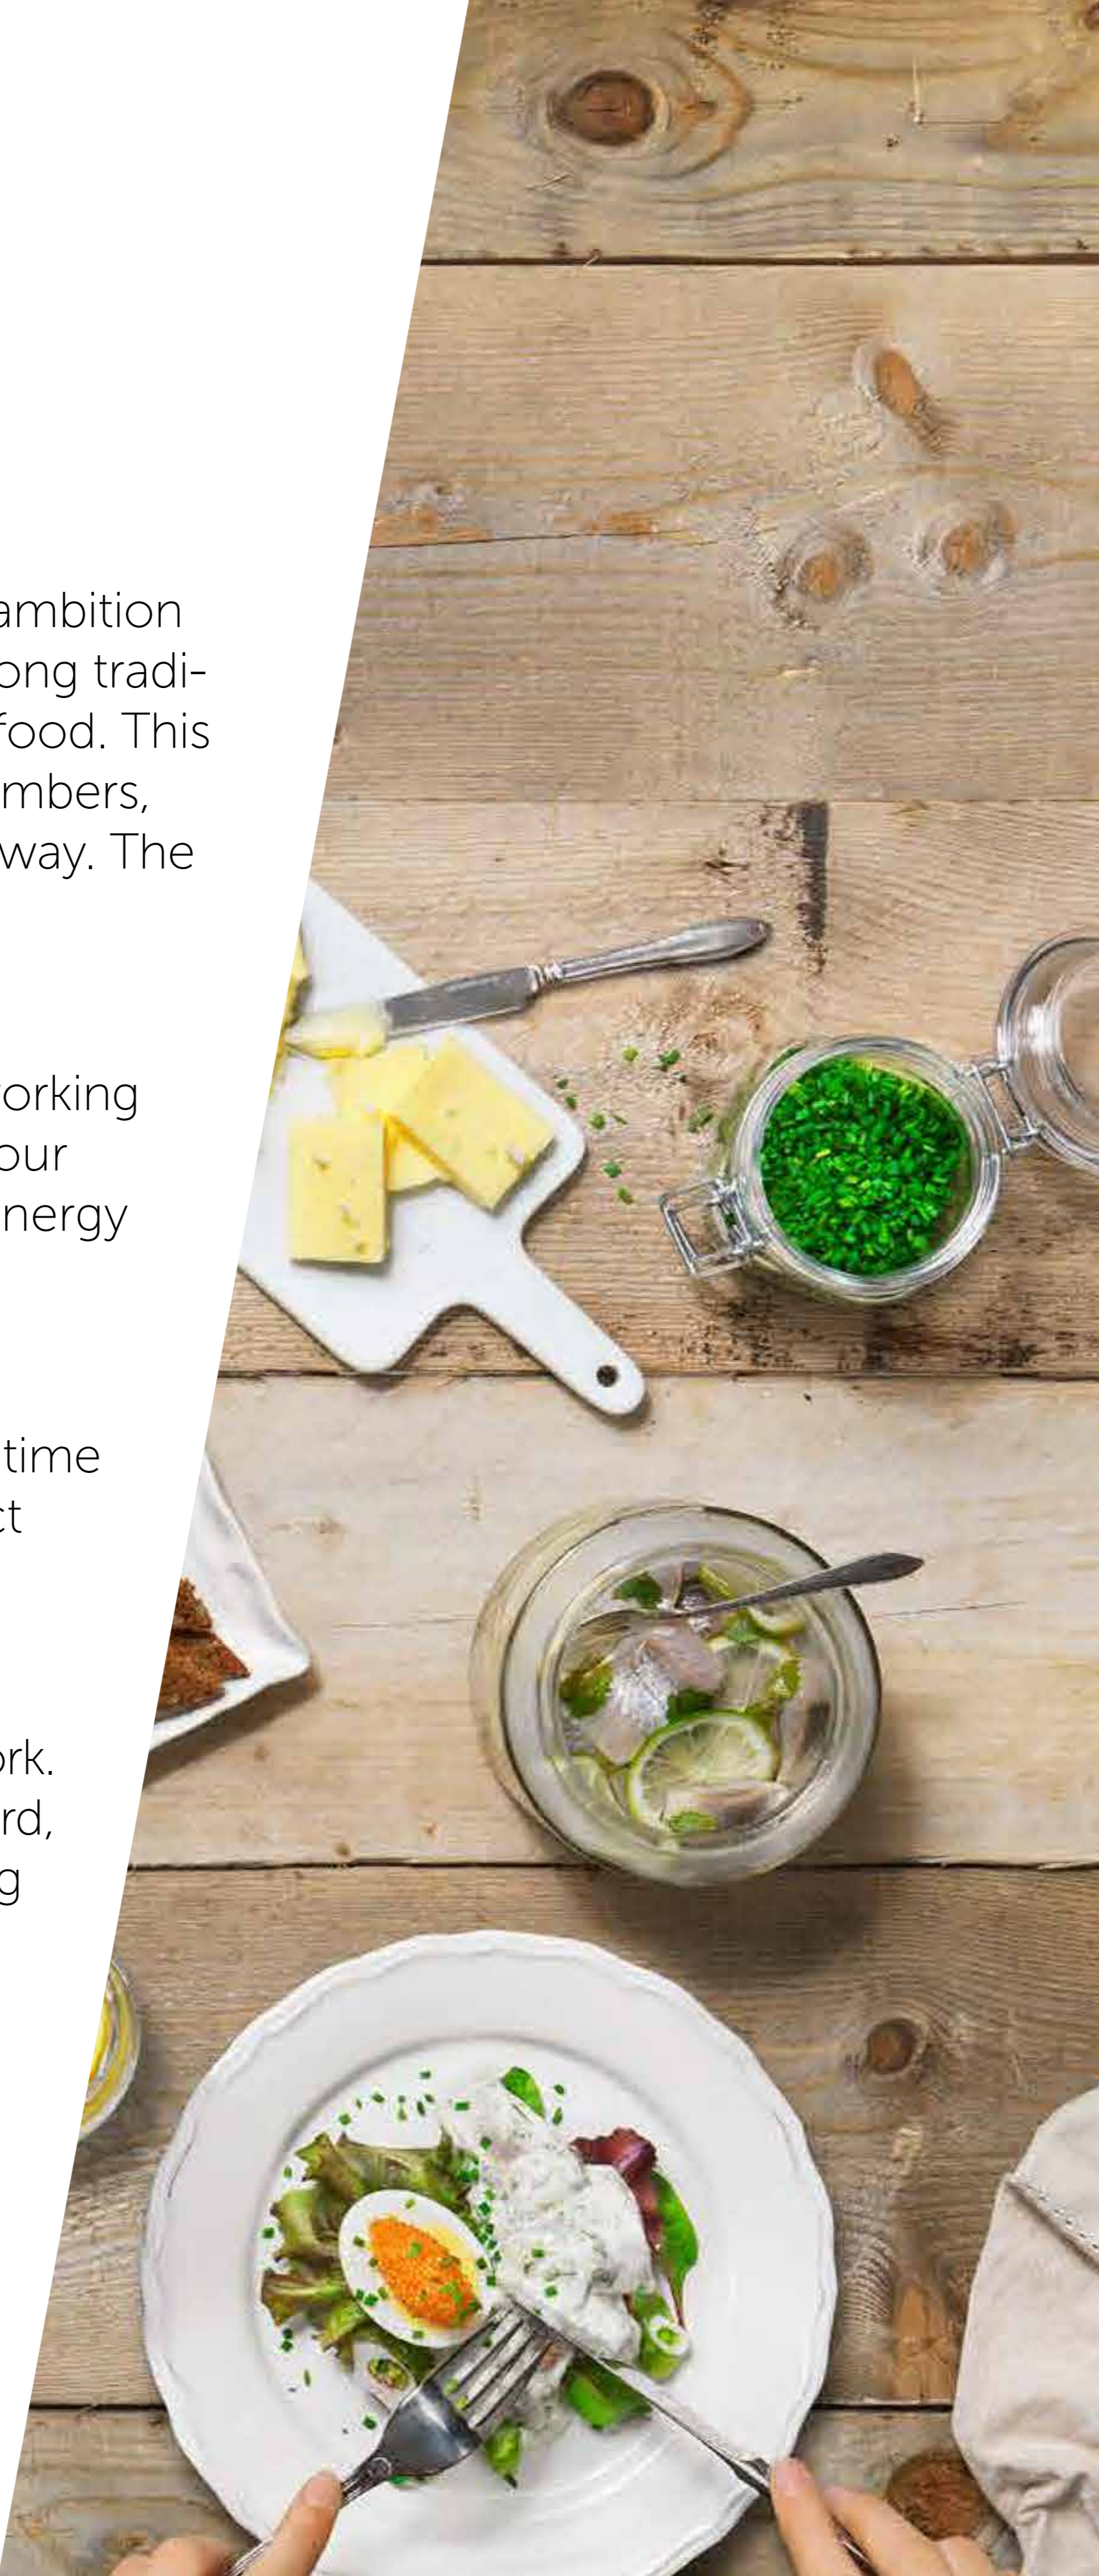

Our ambition is to be an important part of the society of sustainability. This means that we are actively working to reduce the negative impact on the environment and climate. A conscious use of resources (both our own and others) governs everything we do and it applies to raw materials and packaging as well as energy and water. The goal is always to contribute to sustainable agriculture and fisheries.

KNOWLEDGE BASED

We actively research and strive to improve the nutritional content of existing products and at the same time develop new nutritional products. For this work, we collaborate with universities and have close contact with dietitians and other experts.

POLICIES

We use the Swedish nutrition recommendations, as well as our own nutritional policy, as a base for our work. We also work according to the Global Standard for Food Safety (BRC) and Orkla Foods Food Safety Standard, both of which are based on the principles of HACCP (Hazard Analysis and Critical Control Point) regarding food security. We fulfill the Environmental Management Council's criteria for animal products in terms of livestock. These are some of the organizations we support and whose policies we strive to follow in our work:

All you need is heat

Pressed for time at lunch or perhaps completely exhausted when you get home from work in the evening? No worries. We have lots of great ready meals that will give you both a varied diet and a full stomach. You just have to add a little heat.

Our soups are very popular as lunches and there are of course many different varieties from several of our beloved brands. Why not enjoy an extra healthy soup from Paulúns for lunch tomorrow? They are even called "Super Lunch". Or maybe you would prefer fish? Thai? Goulash? Organic Tomato & Grilled Pepper? Like we just said, there is wide variation to choose from.

The large variation also applies to the other products within our range of ready meals. Choose between pizza, pie, pasta, Indian and Thai in all shapes and sizes. All you need to do is heat, eat and enjoy. Leave the rest to us.

Who said that cooking has to be tedious and time consuming?

It's all about the base

A good and solid base makes it so much easier for you to succeed in the kitchen. At the same time, you also get the opportunity to show off your own personal touch by adding the condiments and spices that you like. Within our range of products you will always find fresh commodities and we are constantly striving to develop new modern products while taking good care of and improving our precious classics.

For example, we have Chef's Hash which becomes crazy delicious with a fried egg and a couple of slices of beetroot. And why not try it with one of our spicy ketchups too? Yummy and simple. Also, there are tasty Swedish meatballs and numerous potato products, such as mash, hash browns, dices, french fries, pancakes, gratins, cakes, croquettes, wedges, and so on. You can also find pasta sauces and casserole bases that can transform any dish into a true masterpiece.

If you have a solid ground to stand on, then you can handle most things in life. In the same spirit, we want to create products that gives you a pleasurable feeling of comfort and confidence in the kitchen.

Treasures of the sea

Our greatest source of inspiration is the ocean's own richness of tastes. Maybe this is one of the reasons to why we are Scandinavia's leading producer and distributor of value-added seafood products. We also do our best to try to protect and nurture the oceans responsibly with great consideration for the future. Protecting the marine environment is a natural part of our business and we also know that concern about raw materials brings quality to the products.

We offer a great range of seafood products and one of them is our classic marinated herring. Herring is a genuine and healthy delicacy that can be enjoyed on a piece of crispbread, as an exciting starter or served as it is on a buffet table. You can also find premium caviars and toppings as well as spreads with our family favorite "Kalles Kaviar" as a frontrunner. Or perhaps discover exciting products like Tuna Xpress, fish quenelles and smoked mussels.

Dive in and find your own special gems among all of the treasures that the sea has to offer.

Make it through the day

It is said that breakfast is the most important meal of the day, and we are inclined to agree. A good start sets the tone for the whole day and with our breakfast range from Paulúns you will start your engines in both a healthy and a yummy way. Did you know that we always sweeten these products with berries and fruits instead of sugar? A little tastier. Much healthier.

But even if you have laid the foundation with a solid breakfast, it is important to keep your hunger at a good level throughout the day. Unfortunately, we are living in a time and age where people tend to rush between deadlines, but that is no excuse for skipping that all important snack in between meals. Us Swedes call it "mellanmål" and we have solved this life puzzle by creating smart snack solutions for those on the go. For example, why not enjoy a HavreFrutti?! Delicious and filling oats that also provide energy. We have even included a spoon in the package. Like we said - smart.

Last but not least we have the desserts. Absolutely vital, some argue, but even if you are not among the fanatics, you surely would agree that it does put an extra flavor to life. At Orkla Foods Sweden you will find everything from gorgeous cakes for the birthday party to delicate vanilla sauces that gives your apple pie that extra "umph". Dig in, drool and indulge.

Add the final touch

Our brand Felix is a true classic when it comes to dinner condiments and taste enhancers. Pickled gherkins and beetroots are delicacies that go perfect with pretty much any food dish. Meatballs with mashed potatoes, gravy and lingonberry jam just isn't the same without some pickled gherkins on the side. And you wouldn't even dream of leaving out the sliced beetroots when you are eating Chef's Hash with a fried egg and ketchup.

Speaking of ketchup, this is yet another front-runner within the Felix brand. Felix ketchup is found in most Swedish homes and the range has actually expanded quite a lot in the last few years. You can now find variations with less sugar and salt, with black pepper or with hot chili. There is also a whole new range of barbeque ketchups, each one with its own distinct flavor.

Among our condiments you will also find a whole range of sauces and dressings for many different occasions. We can also provide you with taste enhancers like cucumber relish, soy, chili sauce and tomato paste, which means that you never have to cook another insipid meal ever again.

Fall in love with fruits and berries

The great thing about jam is that it is equally good at every meal of the day. It is therefore a must-have on every well-laid table.

At breakfast it gives you an extra kick as a spread on your sandwich. Later at lunch it serves as an excellent taste enhancer to your meatballs together with potatoes and gravy. When it is time for dessert the possibilities pretty much explode. For example, you can serve the jam on top of your ice cream or why not put a big spoon full of jam next to your pancakes together with some whipped cream!? Even at snack time it fulfills a purpose. Just take a look at our RisiFrutti range where jam of course is included.

The great variations of flavors, and the large amount of occasions when jam is needed, makes it almost impossible to resist. This also means that it is easy for everyone to find a favorite of their own. Love in a jar, simply put.

Quench your thirst

Food in all its glory, but no meal is complete without something to drink. We can offer you many different types of drinks that can enhance your eating experience while putting out your thirst.

We have a large variety of juice drinks and squash from numerous brands. For example, Önos and Bob that bring you straight back to those childhood days when you used to enjoy a glass of ice cold strawberry drink on a hot summer day.

If you want to avoid sugar completely, we can offer you the Fun Light experience. Within this range of cool and tasty drinks you will also find an extra strong concentrate delivered in a small and convenient bottle that is easy to take with. Oh, by the way, it also works perfect as a taste enhancer to your cottage cheese.

If you are looking for alternatives that also bring you a boost, we have the Paulúns drinks that not only quenches thirst, but also provide loads of energy. Perfect for keeping you alert during the day, or why not try some after your workout.

We like to create long-term partnerships with our customers around the globe and we also like to help them to grow in their respective domestic market. This gives us a perfect opportunity to spread the word and give more people the chance to discover our amazing products.

Have a look for yourself. Maybe there already are some products that would fit right in where you are. Or maybe you will get inspired and come up with a new and brilliant idea for how we can start a brand new success story together. We are always open to new and inspiring ideas.
